EARLY CHILDHOOD MUSIC, AGES 0-7

Play is the work of children! In all of our early childhood classes children play together in community with their grown-ups and teachers to explore and experience music through singing, rhythmic, and movement activities. Our classes are created for specific age groupings and each of our highly qualified music teachers bring their own experience, education, personality, and flair to the classes they teach.

Our early childhood music classes are inclusive and open to all! We welcome and celebrate all variations of families, learning modalities, and developmental abilities. Playful music making in community with other children of all abilities and developmental stages creates a safe and fun space for children and adults to explore and develop their musical selves.

All our early childhood classes are parent-child classes, requiring at least one adult family member to attend the class with their children.
